

RONI MILIKOVSKI

UX/UI Product Designer

About

A product designer with 4 years of experience as an instructional designer.

A team player, that can work both in collaborative environments and independently.

Looking for my next challenge in designing a user experience.

I approach every project with a sense of curiosity and a commitment to excellence.

I'm excited to bring my skills and personality to a new team.

Experience

2020-2022

ThriveDX SaaS | Instructional Designer

- Designed Cybersecurity educational materials, including **digital courses and apps**, to engage and meet the needs of diverse learners.
- Managed an international project to create animated videos, coordinating with external vendors and internal teams to ensure quality and timely delivery.
- Worked collaboratively with cross-functional teams, including developers, subject matter experts, and project managers, to ensure that products met **business objectives** and exceeded **user expectations**.

2017-2019

IDF C4I & Cyber Corp | Instructional Designer

- Collaborated with clients to identify training needs and develop customized training solutions, resulting in improved learning outcomes and increased customer satisfaction.
- Designed and developed multiple training programs, utilizing adult learning principles and instructional design models to create effective and engaging learning experiences.
- Utilized a variety of instructional media, including e-learning, blended learning, and instructor-led training, to meet the needs of diverse learners.
